Check out our 2021 date! Add it to your calendar today!

Save the Date:

2021 WSUNER 9th Annual Conference will be held on Saturday, March 6, 2021
Proposals due:
November 6, 2020

COMING SOON

WRIGHT STATE UNIVERSITY

2020 Summer Partnership Institute

Come out and join us for an opportunity to learn, network, and feel invigorated to try new teaching strategies for the upcoming school year!

The Wright State University College of Education and Human Services offers a unique, free opportunity for professional development that will be held at Wright State University this summer on various dates from June through August. Any school faculty are welcome to attend the variety of sessions that are offered by Wright State University faculty, local educators, and community experts.

For more information and updates, refer to the website below:

https://education-human-services.wright.edu/academic-and-career-resources/partnerships-and-field-experiences/summer-partnership-institute
Conference Schedule

7:45 a.m.  Registration Open
Hangar

7:45–8:10 a.m.  Lite Breakfast Served
Hangar

8:10–8:35 a.m.  Opening Address
Hangar

8:45–9:30 a.m.  Breakout Session 1

9:45–10:30 a.m.  Breakout Session 2

10:45–11:30 a.m.  Breakout Session 3

11:40–12:15 p.m.  Awards, Recognition, and Prizes
Hangar

**WSUNER Conference Committee**

Stephanie Adams – Community Outreach Director, Dayton Regional STEM School

Kathleen Bledsoe – Teacher, Huber Heights City Schools

Betsy Chadd - Director of Curriculum and Gifted, Bellbrook-Sugarcreek Schools

Dr. Rusty Clifford – Director of Administration and Operations – Montgomery County ESC

Dr. Amy Elston - (Chair), Assistant Director, WSU Office of Partnerships and Field Experiences

Dr. Michelle Fleming - Assistant Professor in Teacher Education, College of Education and Human Services, Wright State University

Kristine Gillespie – Teacher, West Carrollton City Schools

Dr. Joseph Keferl - Dean, College of Education and Human Services, Wright State University

Tracey Kramer - Director, Office of Partnerships and Field Experiences, Wright State University

Diane Kroplin – Manager of Educational Media, ThinkTV

Beth Mitchell – Language Arts Teacher, West Carrollton City School District

Michael Moore – Director of Curriculum and Instruction, Troy City Schools

Dr. Nimisha Patel - Chair of Teacher Education Department, College of Education and Human Services, Wright State University

Colleen Saxen - Graduate Assistant, Office of Partnerships and Field Experiences, Wright State University

Dr. William Slattery - Professor, Department of Earth and Environmental Sciences, College of Science and Mathematics, Wright State University

Dr. Sheri Stover - Associate Professor, Department of Educational Leadership, College of Education and Human Services, Wright State University

Dr. Jim Tomlin - Associate Dean, College of Education and Human Services, Wright State University

Dr. Nancy Williams - Assistant Professor in Leadership Studies, College of Education and Human Services, Wright State University
Be E³ Smart
Ohio Energy Project

Educators are the greatest resource for shaping young minds to impact Ohio’s energy future. The Be E³ Smart Program sparks curiosity about energy and provides teachers with the knowledge and materials needed to cultivate energy wise behaviors and love of science in students who will become energy learners, leaders and stewards in their communities. If you want to provide your students with materials, lessons and hands on activities to meet the energy science standards, make sure to attend Be E³ Smart!

Presenter: Monique Heath

Monique Heath is an Education Coordinator with Ohio Energy Project. Since joining the team in the spring of 2018, Monique has traveled across the Buckeye State facilitating teacher and student workshops and programs. She has also played an active role in the curriculum development for the Be E³ Smart Program. At Ohio Energy Project she brings over 10 years’ experience in K-12 education. Prior to her joining Ohio Energy Project she worked for Visionary Leaders Institute an education consulting firm who specialized in providing change in the field of urban education. In that organization, she served as a Contract Administrator negotiating and making sure all performance contractual obligations were met as well as business planning, to workflow control. In addition to her contract administrative duties, she also was a Technology Consultant where she facilitated innovative and interactive 21st Century Technology workshops for educators and students assisting with navigating the issues surrounding today’s technology and how to leverage the power of these tools for academic excellence.

Co-Presenter: Debbie Pellington

Debbie Pellington is a gifted facilitator, who currently works with 6th, 7th and 8th graders at Genoa and Heritage Middle Schools in Westerville, OH. As a gifted facilitator, Debbie has the opportunity to work with teachers on ways to extend and differentiate the curriculum and the learning experiences for middle school students. Debbie also facilitates a chess club, a game board club, and battle of the books competitions at her schools. Additionally, one of the best parts of Debbie’s job is working with teachers to facilitate the E3 program and energy fairs offered by OEP. Debbie has been a member of the Activating and Energizing Girls In Science (AEGIS) team with the Ohio Energy Project (OEP) for the past sixteen years, presenting this program to students in Indiana, Texas, Arkansas, Oklahoma, Virginia, and here in Ohio by empowering hundreds of students to lead groups to spread their energy knowledge to thousands of students nationwide. AEGIS workshops are designed to empower middle school girls through STEM, to think about energy’s sources and production a little differently, and to energize them to become student leaders in their classrooms, schools, and communities.

For more information about the Ohio Energy Project and what they have to offer teachers, students, and school districts across Ohio, please visit their website at www.ohioenergy.org

Engaging and Motivating the Struggling Student with Online Gaming
Sarah Ahmad – North Dayton School of Discovery
Overarching Topics: Struggling Students, Student Engagement and Motivation, Technology
Audience: 1st - 8th
Content: Language Arts, Math
This presentation is designed to enhance educators’ skill-sets by doing a deep dive into how to engage the struggling student with online gaming. Participants will explore online games and learn how these games can be used to increase students’ learning. Educators will discover how games like Prodigy (online Math game) and Dreamscape (online ELA game similar to Prodigy) can ensure student success. Participants will leave this presentation with a deep understanding of how these online games can engage and motivate their students. Participants will be able to use these games in their classroom the next day.

The Arts Matter: Creating Opportunities for Creativity for All Students
Justen Seay – Dayton Public Schools
Overarching Topics: Content Focused Instructional Practices, Curriculum Design and Lesson Planning
Audience: K-12th
Content: Art, Music
Teaching the whole child should be a focus of urban schools across our area. The arts help to develop skills that students don’t usually get in the general education classroom, such as self-discipline, self-efficacy, and creativity. This presentation will discuss strategies to integrate the arts into the school environment and share the successes of a local school district.

Creating a Culture of Growth and Collaboration
Jacqui Lehmkuhl, Chelsey Straka, Michelle Owen, Meghan Arnold, and Lindsey Hilgefort – Troy City Schools
Overarching Topics: School Culture and Climate, Struggling Students, Student Engagement and Motivation
Audience: 6th - 12th
Content: Open to all content areas
The numbers do not lie. Team Math at Troy High School has created a culture of collaboration and growth. Our mantra is #BetterTogether! Join members of Team Math as we share strategies and ideas of creating mathematical moments that all kids deserve.

Using Choice Writing to Combat Negative Behaviors
Erika Reynolds – Northridge Local Schools
Overarching Topics: Classroom Management, General Instructional Practices, Student Engagement and Motivation
Audience: 6th - 8th
Content: Language Arts
Talking incessantly, throwing pencils, avoiding work—this describes my students before I implemented choice writing. But not all choices are created equal. Come learn the three core components that make choices intrinsically motivating and leave with activities to help even your most difficult students make choices about topic, craft, and structure.

Yoga in the Classroom – A Behavior Management Approach
Shanon Vance – Huber Heights City Schools
Overarching Topics: Classroom Management, Self-Wellness, Social-Emotional Learning
Audience: Pre-K-12th
Content: Open to all content areas
Do you want to be proactive about behavior management while teaching your students lifelong skills to maintain a healthy body and mind? You will have the opportunity to learn how to implement yoga in your classroom after leaving this presentation. You will be presented with a variety of strategies on how to use yoga and deep breathing in your classroom as a way to be proactive in your behavior management. The strategies provided can be tailored to your specific classroom needs and can be used immediately.

Differentiation Strategies for use with Gifted Learners
Beth Sizemore – Beavercreek City Schools
Overarching Topics: Instructional strategies
Audience: K-12th
Content: Open to all content areas
This session will focus on easy to implement strategies for differentiated instruction. Strategies will be practical and impactful to help teachers meet the needs of gifted and high ability learners.
An Introduction to Universal Design for Learning  
Shalen Back and Kim Barnhart – Huber Heights City Schools  
Overarching Topics: Curriculum Design and Lesson Planning, School Culture and Climate, Student Engagement and Motivation  
Audience: Pre-K -12th  
Content: Open to all content areas  
We know from experience and science that individuals learn in varied ways—ways that are particular to them. Universal Design for Learning (UDL) provides educators with practical strategies and techniques to ensure that all learners can meet high expectations. In this introductory course, participants learn the research basis for UDL, practical applications of UDL to lesson design, and helpful tools/strategies that support flexible, inclusive instruction.

Bringing STEAM Skills to Life with littleBits  
Alan Limke – Milton Union Exempted Village Schools  
Overarching Topics: Project Based Learning, Student Engagement and Motivation, Technology  
Audience: 3rd -8th  
Content: STEAM/STEM  
Learn how littleBits can help increase student engagement by providing hands-on lessons in circuitry. Participants will learn the basics of littleBits through building and experimentation. You will be led through guided inventions and given practical suggestions for classroom application. The first 20 attendees will receive a free Hall of Fame Kit from littleBits.

Change Your Aim – A Different Approach to Assessing Students with Complex Needs  
Michelle Duncan, Rachel Hill, and Shimika Duerson– Springfield City Schools  
Overarching Topics: Assessment and Grading  
Audience: 3rd -12th  
Content: Language Arts, Math, Science, Social Studies, Special Education - Low Incidence  
The delivery of instruction comes in a variety of methods in order to meet the needs of all learners. With the need for accurate data to drive instruction, quarterly pre and post assessments have been created in several formats. The Springfield City School District is using Slides, Edulastic, and Vizzle, to present these assessments to support the physical and cognitive needs of students while collecting meaningful data on student performance to guide instruction. Participants will: 1. Examine how assessment drives the rigor of instruction and how it impacts student achievement. 2. Analyze the accessibility features of each format, in order to adapt instruction to address the physical and cognitive needs of students. 3. Critique what participants are currently doing in their own districts and determine how quarterly common assessments could be implemented to customize instruction.

Reaching ELs Using Effective Accommodations & Modifications  
Wendy Grimm, Jess Nelsen, and Julie Forman – Troy City Schools  
Overarching Topics: Project Based Learning, Curriculum Design and Lesson Planning, Differentiation  
Audience: Pre-K-12th  
Content: Open to all content areas  
Do you have English Learners in your classroom? Even those who are advanced in their English language skills may still struggle to comprehend in a general education classroom. Participants will learn about accommodations and modifications that can be made to serve a growing EL population, as well as a variety of strategies to use for communication.

Wizards of Wright - WOW!  
Angel Callahan – Educational Outreach Office, Wright Patt Air Force Base  
Overarching Topics: Instructional strategies  
Audience: K-12th  
Content: Language Arts, Social Emotional Learning  
The Wizards of Wright is a Wright-Patterson Air Force Base Educational Outreach Program. We are a K-12 STEM Program, free to all teachers in the Dayton area. We offer volunteers that can visit your classroom with hands-on STEM activities, as well as materials you can borrow throughout the year. During this session you will learn about the free resources available to you, how to request and schedule it for your classroom, and see some of the materials that we offer.

Message Received  
Breanna Wetzel and Dr. Christa Agiro – Wright State University  
Overarching Topics: Content Focused Instructional Practices, Differentiation  
Audience: 2nd-12th  
Content: Language Arts  
Have you ever thought about the messages students receive from reading novels in relation to the world? Do the students’ novels perpetuate stereotypes, and if so, at what (whose) cost? Whose voices do the novels ignore or silence? These are the types of questions you should ask yourself as you read. In this interactive presentation, participants will learn the importance of critical analysis, while focusing on how people with disabilities are portrayed in a text. Participants will also be introduced to scaffolding methods that could be easily implemented to teach critical analysis of literature to students of all ages.

<td>Kelli Myers – Dayton Leadership Academies</td>
<td>1st - 12th</td>
<td>Language Arts</td>
<td>Our students need windows and mirrors when they read books; narratives that expose them to new perspectives and cultures, and stories that authentically reflect their own experience that they can identify with. Think about your curricular texts- are they culturally relevant? Are they multi-cultural? What exactly does it mean to take a culturally responsive approach to literature instruction? Participants will dive into the foundational pedagogy and framework for CRLI. All participants will leave the training with the ability to plan instruction using a social justice lens and implement instructional strategies immediately.</td>

Creating Engaging Slideshows Using Pear Deck!

Keshia Hahn – Dayton Public Schools

Overarching Topics: Student Engagement and Motivation, Technology

Audience: 5th-12th

Content: Open to all content areas

This session will provide participants with opportunities to explore 4 aspects of creative thinking and how to infuse them into the K-12 classroom. Emphasis will be placed on using these strategies to help meet the needs of gifted and high ability learners.

Equitopia: A+3

Larra Berry-Williams – Dayton Public Schools

Overarching Topics: Cultural Responsiveness, Self-Wellness, Equity

Audience: Pre-K-12th

Content: Open to all content areas

This presentation will guide educators in establishing an equitable classroom setting amongst a diverse student population by:
- Acknowledging where they are as an equitable educator.
- Accepting their role in the process.
- Generating Action steps to work towards their personal EQUITY goals.

Morning Meeting for your Classroom and Beyond

Jill Culler, Paige Rose, Rachel Barker, and Heather Hebrank – Bellbrook-Sugarcreek Schools

Overarching Topics: Classroom Management, School Culture and Climate, Social-Emotional Learning

Audience: Pre-K-5th

Content: Open to all content areas

Have you ever wanted to know more about hosting morning meeting in your classroom or in your school? Join us for a mock morning meeting where you'll discover greetings, morning messages, sharing and activities to facilitate community building within your classroom. In addition, learn how this strategy can be extended to an entire grade level or building morning meeting.

Teaching and Advocating for English Learners

Katrina Webber – Dublin City Schools

Overarching Topics: Cultural Responsiveness, Differentiation, English Language Learners

Audience: K-12th

Content: Language Arts, Open to all content areas

English Learners are not a monolith, but are sometimes treated as such. In this session, learn ways to support ELs in the classroom, such as diversifying your classroom library and adapting classwork, as well as students' entitlements and requirements by state law.
Are you interested in incorporating the new Social Emotional Learning Standards into your life and the lives of your students? Would you like to feel less stressed and get more done? Join this session to explore tools that support enactment of self-awareness, self-management, positive relationship skills, and responsible decision making. The tools shared help with task organization, decision-making, effective communication, mindful behavior, time tracking, and even falling asleep! Participants will be introduced to a variety of resources, websites and apps that can help educators (and their students) achieve more and worry less!

3rd Session
(10:45-11:30)

The Harsh Realities of Inclusion
Allyn Hall 124
Armiya Muhammed – Northridge Local Schools
Overarching Topics: Curriculum Design and Lesson Planning, Differentiation, Special Education
Audience: K-12th
Content: Open to all content areas
Are you looking for a better understanding of inclusive practices? How do curriculum design, lesson planning, and differentiation collide to determine the effectiveness of modern inclusive practices? Participants will interrogate modern inclusive practices in an effort to improve instruction for those with special needs. All participants will leave with an understanding of the intent behind inclusion, and a collection of theoretical and practical pedagogical practices to improve the educational experience for those with special needs.

Improving Parent Involvement to Increase Student Achievement
Allyn Hall 126
Justen Seay – Dayton Public Schools
Overarching Topics: School-Community Partnerships, School Culture and Climate
Audience: K-12th, Community
Content: Open to all content areas
Parent involvement is a major factor in improving student outcomes for students. This workshop will discuss strategies for improving parent involvement and creating strong school-home connections.

Controversial Picture Books: A Launching Pad for Teaching Tolerance and Tough Conversations
Allyn Hall 128
Kelli Myers – Dayton Leadership Academies
Overarching Topics: Content Focused Instructional Practices, Cultural Responsiveness, Social-Emotional Learning
Audience: K-9th
Content: Language Arts, Social Studies
How diverse is your classroom library? Learn how and why you should incorporate controversial picture books into your classroom. Participants will be asked to challenge their assumptions about what topics are and are not acceptable to present to students through picture books. Strategies for selecting, defending, and planning discussion for controversial picture books will be explored. Think picture books are only for K-3? Think again! This workshop will explore cross-content area instructional applications for elementary, middle, and high school.

Listening and Speaking Strategies For Building Reading Comprehension
Allyn Hall 210
Robin Zelinski – Dayton Public Schools
Overarching Topics: Reading Comprehension
Audience: K-6th
Content: Language Arts
Are you looking for reading strategies that promote listening and speaking skills? Participants will leave with four to five comprehension strategies that can be taken back to their classrooms and implemented with very little prep work. Strategies such as walking the yellow brick road for summarizing and interactive read-alouds will be shared. Participants will also leave with an understanding that comprehension skills should be explicitly taught. All participants will leave with printed freebies.
This session overview will spotlight all of the great programs OEP has to offer. Programs include:

- Grade-Level Professional Development Workshops: Grades 3rd, 4th, 5th, 7th & 9th
- Energy Efficiency Program
- Energy Sources Tour & Blitz
- AEGIS (Activating and Energizing Girls In Science)
- Careers in Energy Program
- Youth Energy Summits & Workshops

Implementing Differentiation: Strategies to Success
Beth Sizemore – Beavercreek City Schools

Overarching Topics: Management strategies
Audience: K-12th

Content: Open to all content areas, School leadership and administration

Differentiation can be hard! This session focuses on implementation strategies for differentiation - how to actually make it work.
Emphasis will be on classroom management and organization techniques to make implementing differentiation a success.

How Resiliency, Mindfulness, and Daniel Tiger Could Change A Life, Your Classroom, and Your School
Elizabeth Rose - Huber Heights City Schools

Overarching Topics: Classroom Management, School Culture and Climate, Social-Emotional Learning
Audience: Pre-K-12th

Content: Open to all content areas

We have all seen and heard it, "Students today are different". If you have struggled with how often and how many students are disruptive, disengaged, inattentive, or even violent, this session may be for you. We wouldn't expect students to walk onto a football field and throw a touchdown. Therefore, we cannot expect them to implement attention and self-regulation strategies without first practicing. Participants will be introduced to a variety of mindfulness, attention, and self-regulation programs and ideas with the training and research to implement ideas within their own rooms immediately.

Balancing the Titles of "Principal" and "Mom"-Female School Administrator Insights on How They Try to Balance it All
Joyce Koopman, Nikki Jones, and Alexis Dedrick – Troy City Schools

Overarching Topics: Administration, Teacher Leadership
Audience: Aspiring educators at all grade levels, Aspiring/Current Administrators

Content: Open to all content areas

Being an administrator is a very exciting, challenging experience. It is valuable and rewarding work, yet it also can be time consuming and a mentally stressful position. Although women make up the majority of the teaching profession, they make up less than half of school administrators. Troy City Schools has a great administrative team with several female administrators! Come listen to their professional stories that led them into leadership, hear administrative insights, and ask them questions on how they manage their positions and their most important job title, "Mom."

Fairborn Digital Academy's Apprentice Master Gardening class
Shari Little, Erik Tritsch, Nathan Eubank, and Lisa Pent – Fairborn City Schools

Overarching Topics: Project Based Learning, Self-Wellness, Student Engagement and Motivation
Audience: 11th-12th

Content: Art, Health, Language Arts, Math, Science, Social Studies

This student-led presentation will introduce the participants to Fairborn Digital Academy’s Apprentice Master Gardener Program. Participants will learn how the school partnered with The Ohio State University Extension Office, Greene County to build a curriculum for high school students. The program teaches general gardening skills and incorporates life skills, leadership skills while teaching students to have pride in themselves, their school and their community. Participants will leave with a framework to help build a similar program at their own schools.
### Memoirs, Museums, and Podcasts: Creating a Classroom of Storytellers and Lifelong Learners

Christine Quiblat, Laura Xiong, and Megan LeMaster – Centerville City Schools  
**Overarching Topics:** Project Based Learning, Cultural Responsiveness, English Language Learners  
**Audience:** 6th – 9th  
**Content:** Language Arts, Social Studies  
The best stories are personal. Participants will be introduced to three units focusing on memoir writing, designing a museum, and creating podcasts. Handouts and other materials will be provided so participants will be able to implement these units immediately.

### Never enough Time or Money in the Primary Grades

Ginny Dowd – Troy City Schools  
**Overarching Topics:** Content Focused Instructional Practices, Differentiation, Struggling Students  
**Audience:** K-2nd  
**Content:** Math  
Time and money...teaching both these standards doesn't have to cost you anything or be too time consuming! This session will offer easy lessons for telling time and counting money through the use of chant, rhyme, movement, and connections across the math curriculum.

### Talking Trans: Creating Inclusive Spaces a Trans Experience Workshop and Panel

Emily Wheeler, Dr. Christa Agiro, Petey Peterson, and Dr. Kat Childers – Wright State University and Northeastern High School  
**Overarching Topics:** Cultural Responsiveness, School-Community Partnerships, School Culture and Climate  
**Audience:** Community  
**Content:** Open to all content areas  
In this space we will present a workshop covering terminology, resources, and the importance of support and community to create a more trans inclusive culture. Following the workshop, we will offer a panel discussion where our panelists will share about their experiences as trans people or as cisgender allies with a facilitated Q&A with the audience.
